

AMERICAN RALLY FOR PERSONAL RIGHTS

vaccination choice. parental consent.

We believe in the rights to life, liberty, and personal security for ourselves and our children.

We demand the universal human rights standard of informed consent for all medical interventions. Compulsory vaccination cannot be legally and morally justified.

We affirm the sanctity of personal space, the right to be left alone, and the freedom to make personal health care decisions guided by the professionals of our choosing.

We invite all people, families and organizations committed to protecting these fundamental rights to stand with us in downtown Chicago on May 26, 2010, and to work with us after the rally to support grassroots advocacy, education, and leadership in defense of our personal – *individual, parental, legal, moral, religious, civil, and human* – rights.
